

History of Changes to ACC Screener/PIN3 & PIN3+ 15-20 Week Screener

- Some early questionnaires may have a handwritten second column of answers that were asked when the blood was drawn on a day different from recruitment. Data entry screens were created with this idea in mind.
- Question 5 (Why is she not participating?) should never be answered because we should only receive Screeners for those who signed the consent form and who would thus skip this question.
- All questionnaires that have [Is blood to be collected today] before questions about eating are entered into database CS1v1.

April 4 2001

- Dropped question 20a (What was eaten?). This question was never coded or entered.

May 2001

- Added second column that re-asks questions 9-[Is blood collected today?] when blood draw is different from recruitment date.

July 2 2001

- Switched order of eating questions and [Is blood to be collected today]. Eating questions now come before this question, whereas before they appeared after it. Questionnaires with this ordering of questions are entered into database CS1v2.

February 18 2002

- Changed name of form to PIN3 & PIN3+ 15-20 Week Screener Information from Clinic Recruitment.
- Dropped question 6 (How would you describe participant's interest in participating in study?).
- Dropped question 19 (Eat in 6 hours before appointment?).
- Added question 19a (Eat in 8 hours before appointment?).
- Dropped question 20 (What time did you last eat in 6 hours before appointment?).
- Added question 19b (What time did you last eat in 8 hours before appointment?).
- Added question 20a (Drink anything other than water?).
- Added question 20b (What time did you drink something other than water?).
- New database created for these data (CS1v3).

May 13 2002

- Added supplement form that contains Body Image Data questions S1 (CBS response) and S2 (IBS response).
- New database created for these data (CS1v4).

June 7, 2002

- Moved work related questions to supplemental sheet that contains Body Image Data (question number and variable name remain the same).
- Added Recruiter ID number to supplemental sheet (new variable).
- New database created for these data (CS1v5).

NOTE: SAS label appears in caps, expanded label appears in lowercase where necessary.

Var. Name	Len	Label	Comments
PATID	5	PATIENT ID	between 30000 and 40000
LABID	4	LABORATORY ID	
CS1VMON	2	CLINIC SCREENER VERSION MONTH	SEE PAGE 1 FOR VARIOUS VERSIONS OF THE CLINIC SCREENER between 1 and 12
CS1VDAY	2	CLINIC SCREENER VERSION DAY	between 1 and 31
CS1VYR	4	CLINIC SCREENER VERSION YEAR	between 2000 and 2005
CS1_01	2	RECRUITER ID	
CS1_02A	2	MONTH OF RECRUITMENT	between 1 and 12
CS1_02B	2	DAY OF RECRUITMENT	between 1 and 31
CS1_02C	4	YEAR OF RECRUITMENT	between 2000 and 2005
CS1_03	8	PATIENT MEDICAL RECORD #	
CS1_04	1	WAS CONSENT FORM SIGNED?	1 = yes
CS1_06	1	INTEREST IN PARTICIPATING IN STUDY	1 = very willing 2 = somewhat willing 3 = neither willing no unwilling 4 = somewhat unwilling 5 = very unwilling <i>this var dropped 18 February 2002</i>
CS1_07A	2	HEIGHT-- FEET	
CS1_07B	5	HEIGTH-- INCHES	
CS1_08	6	WEIGTH-- POUNDS	
NOTE: Do not code "Are saliva & BV to be collected today?"			
NOTE: Versions prior to 7/2/01 do not have a second column for questions 9-[Is blood to be collected?]. However, recruiter may have asked these questions twice if blood was not collected on first visit. In these cases, the recruiter should have written in a second set of responses, along with the date that the questions were asked. These prior versions were treated like 7/2/01 version.			
CS1M1	2	MONTH OF 1 ST /ONLY VISIT	between 1 and 12
CS1D1	2	DAY OF 1 ST /ONLY VISIT	between 1 and 31

NOTE: The question [Is blood to be collected today?] appears before the questions on eating in versions prior to 7/2/01. In these earlier versions, there was a skip pattern if blood was not collected. According to notes from Barbara Eucker, however, recruiters should have asked these eating questions anyway.			
CS1_20C	1	1 ST /ONLY VISIT- BLOOD COLLECTED TODAY?	0 = no → CS1M2 1 = yes → CS1_21 8 = refused → CS1_21
