NOTE: We will be coding and entering whether or not all of the specimens were collected. This section, called "Specimens collected" appears on page 3 of the Screener. We will code/enter one response to the two separate check options of "Yes, all collected" or "No- subject refused." If an answer of "Yes" is checked, this gets coded as a 1 in field CS2_SPEC. If an answer of "No" is checked, then this gets coded as a 0 in CS2_SPEC. If the latter is the case, then there should be checks next to the specimens that she refused/failed to give.			
CS2_SPEC	1	SPECIMENS COLLECTED?	0 = no – subject refused 1 = yes, all collected → CS2_COM
