

History of Changes to Physical Activity Reliability

6 July 2001

- Added Section Q (preliminary information and introduction to study). This section is comprised of questions Q1-Q3.

15 November 2001

- Dropped R7-R9 from Work Activity section.
- Dropped R23-R25 from Indoor Activity section.
- Dropped R37-R38 from Walking, Stairs, and Sedentary Activity section.

19 November 2001

- Dropped R3-R6 from Work Activity section.
- Added R5a (how often did job require you to stand).
- Dropped R19-R22 from Indoor Activity section.
- New database (PARv2) created for entry of these questionnaires.

NOTE: All questions are framed as the 7 days that were recounted in the Interview in question.

Main Data Record

NOTE: SAS label appears in caps, expanded label appears in lowercase where necessary.
