DUPLICATE PREGNANCIES

dupwoman	Num			
				ID that uniquely identifies a woman who had more than one PIN pregnancy. If DUPWOMAN is missing, then that woman has only one PIN pregnancy. If it is not missing, then she had more than one pregnancy. If you sort on this variable, it will show you the woman's multiple pregnancies (if you sort on DUPWOMAN in PIN3 data only, she may show up with two or more pregnancies in PIN3, but if she only has a single observation in PIN3, then that means her other pregnancy was in PIN1 and/or PIN2).

Frequency	Mean	Std Dev	Min	Max
139	282.51	82.38	61.00	384.00

c_pindup	Num			Duplicate PIN pregnancy - the first digit tells you the sequence of the pregnancy (e.g., 1 = first pregnancy 2 = second), the last three digits are the woman's unique ID (DUPWOMAN). This variable does not necessarily tell you which PIN phase the pregnancy belongs to. A woman who is uniquely identified as DUPWOMAN 261 may have her first pregnancy (C_PINDUP = 1261) in PIN2 and her second and third pregnancy in PIN3 (C_PINDUP = 2261 and 3261).
Frequency	Mean	Std Dev	Min	Max
